EXPERIENCE

Data Engineer Intern at Sears IT and Management, Pune   *21.10.2019-01.07.2020*

- Worked on Google Cloud Platform (*BigQuery),* Python and shell scripting.
- Part of the EDL Team which migrated data from old server to Cloud Storage.
- Responsibilities include the following roles:
    - Prepared scripts to load data from source servers to Big Query Tables.
    - Wrote queries to manipulate data and to remove junk characters, data redundancies etc if found.
    - Worked on Data Visualization project using Python libraries like Pandas, Matplotlib and numpy.

IT Intern at Tinplate Company of India Limited   *02.05.2018-31.06.2018*

Under *Mr. C.K Goswami Asst. Manager (Trg. & Dev) Human Resources Management*

- Studied the past scenario for registering complaints against company assets like monitors, CPU, projectors, Air conditioners etc. Created a website TCIL Complaint registration service for the same using ASP .Net and C#.
- Resolved the issue of data redundancy, data entry errors and data loss.
- GitHub: https://github.com/yesabhishek/TCIL-CRS

CERTIFICATION COURSES

- PYTHON Programming with MYSQL

PROJECTS

- Made a website "Braniac" for college Tech. exhibition.
    - Developed games such as Tic Tac Toe and Sudoku using JavaScript and HTML. Styled using Bootstrap4.
    - Used Google embedded games in the website for Pacman and Chess.
    - GitHub: https://github.com/yesabhishek/Braniac

- Made a website "VotesApp" for counting votes for multiple occasions.
    - Self learned Django and developed a full stack web application. The vote that is made on the webpage is being registered and stored in SQLite3 database.
    - With User Authentication, only registered user can vote.
    - The database data can be later used to examine the vote results or to publish it then and there in the Website.
    - GitHub: https://github.com/yesabhishek/VotesApp

- Created a To-Do List using React JS and Firebase "Slick List".
    - Self learned the concepts and developed a real time To-Do list for personal use and learning.
    - Deployed using Firebase at https://organizer-8c062.web.app/
